

# DISENTIS

JAN 27-FEB 3 (\$4995 CAD)

\$4000 USD approx. / £3050 GBP approx.

Nestled in the mountains between the bustling ski centres of Andermatt and Laax, Disentis is our kind of town: a small town with big descents. Step away from the sharp-elbowed crowds of the aforementioned ski meccas and into a quaint town with plenty of history and the same terrain that the freeride paradise of Andermatt is hailed for.

Due to the copious amounts of snowfall in the winter, the main roads to town are closed off during the winter months, reducing crowds, and guaranteeing lucky visitors thousands of feet of fresh snow beneath their ski tips. We team up with local guides to bring you to the very best terrain Disentis has to offer, accompanied with skills and techniques from our Extremely Canadian coaches that you will be able to bring home to your local ski hill.

The skiing involves short hikes (ski-touring) from the top of the lift, sometimes running so far into the valley that a train-assist is needed to get back to the base of the lift. Don't worry though—the train has a bar and doubles as your Après ski as you cruise through the Swiss countryside.

Ski touring experience is a must for this trip, with hikes ranging from twenty minutes from the top of the lift to a few hours. Travel like a local—come experience this hidden gem with us while it's still hidden.

**TRIP DATE: JAN 27 - FEB 3, 2018.** For only \$4995 CDN, take advantage of our guides' mountain knowledge to fully explore the incredible terrain that Engelberg has to offer.

## INCLUDED:
